Skills

Hello! My name is Gunnar Ulatowski, I am eighteen-years-old, and I strive for excellence in all I do. I am a full-stack web developer and work with technologies such as HTML, CSS, Bulma, Bootstrap, Javascript, Node.js, JSON, JQuery, Mysql, Insomnia, Github, Sequelize, Express, Heroku, React.js, and GraphQL. I have also worked in content marketing and sales.

As you can see below, I have been heavily involved in team sports throughout my life. Being a part of so many different teams has taught me a variety of valuable skills such as communication, leadership, self-motivation, and collaboration, all of which I can confidently implement in a workplace setting.

I also speak and write fluent spanish, have superb problem-solving skills, and carry out tasks efficiently under pressure. I'm certain I

would be an excellent addition to your staff.
